Neurosciences and Advanced  
Diagnostics (Bi.N.D.), University of  
Palermo, 90100 Palermo, Italy

Deadline for manuscript  
submissions:

**closed (30 April 2024)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue is an opportunity for scientists to publish their original research on the post-transcriptional mechanisms regulating neuronal and glial cell metabolism, or to organize a review on specific aspects of this topic. Given the obvious connection with the mechanisms misregulating neuronal activity and leading to neurodegeneration, investigations aiming to comprehend the pathological aspects of the regulation are welcomed.

Dr. Carlo Maria Di Liegro

Dr. Gabriella Schiera

## Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

**Journal Rank:** JCR - Q2 (*Genetics & Heredity*) / CiteScore - Q2 (*Genetics*)
