

Dear Colleagues,

On behalf of the Evaluation Committee, we are pleased to announce the winner of the *Geosciences* 2017 Travel Award, **Ms. Amelia Jane Davies**, who will be supported with 800 Swiss Francs towards her travel expenses to attend Goldschmidt 2017, 13-18 August in Paris. It was a difficult decision with such high quality applications for the award and we would like to thank all applicants for submitting their diverse and thought-provoking presentations.

Ms. Amelia Jane Davies is a PhD student at the Department of Earth Science and Engineering, Imperial College London, United Kingdom. Her research interests focus on research investigating paleo-temperatures and kinetic fractionation in non-traditional fossil groups using clumped isotope geochemistry. She is keen to present her work on (dis)equilibrium effects in the clumped isotope composition of non-traditional fossil groups at Goldschmidt 2017.

We wish to congratulate Ms. Amelia Jane Davies for her accomplishments.

Prof. Dr. Jesus Martinez-Frias,
Editor-in-Chief, Geosciences

2017 TRAVEL AWARD WINNER

Geosciences (ISSN 2076-3263) is an international open access journal of geosciences published quarterly online by MDPI.
