Message from the Guest Editor

Dear Colleagues,

We are pleased to invite you to contribute to this Special Issue, 'Innovative treatments for post-traumatic stress disorder (PTSD)', which welcomes original research articles and reviews that either (i) describe successful prevention strategies and/or early interventions, (ii) promote effective programs to increase resilience to war-related or civilian-related trauma, (iii) describe innovative therapeutic strategies, (iv) evaluate the effectiveness of conventional or innovative psychotherapeutic treatments, or (v) evaluate the effectiveness of pharmacotherapeutic treatments and strategies for PTSD.

The goal of this Special Issue is to foster innovation and the more widespread use of evidence-based approaches, and to share insights obtained from field experience, intercultural views, and academic knowledge, in order to enhance access to care for PTSD.

I look forward to receiving your contributions.
