dei Sabelli, 108-00185 Rome, Italy

Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editor

Dear Colleagues,

During the course of life, cognitive and emotional development go hand in hand. A delay or impairment in one can affect the development of the other. Understanding how cognitive and emotional development influence each other during development is crucial in order to plan effective interventions that take into account a child's difficulties in a comprehensive manner. Treating a cognitive difficulty without taking into account the emotional component and vice versa may result in a failure to achieve the therapeutic objective and affect the individual's quality of life.

This Research Topic welcomes many different types of papers which regarding emotional and cognitive development in children, such as original research articles, case reports, and systematic reviews, reviews papers.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
