

2nd Edition of Perspective Expanded: Healthcare from the Perspectives of Patients, Actors, and System Users

Guest Editor:

Prof. Dr. Andrea Glässer

1. Institute of Biomedical Ethics and Medical History (IBMH), University of Zurich, 8006 Zürich, Switzerland
2. Institute of Public Health (IPH), School of Health Sciences, Zurich University of Applied Sciences (ZHAW), 8400 Winterthur, Switzerland

Deadline for manuscript submissions:

1 August 2024

Message from the Guest Editor

This Special Issue will focus on patients' perspectives as experts, on their challenges and healthcare-related experiences embedded in a biopsychosocial framework. Research on experiences regarding health, health care, but also illness will build the core of this issue by focussing on qualitative research methods mainly from patients' perspectives and or their corresponding surroundings. They will not only provide insights into complex healthcare situations, ethical related questions but also into patient-centered challenges as a possible starting point for improving healthcare systems and or policy. An interprofessional perspective on health care providers, family members, or key caregivers of patients, clients, and users are most welcome. In addition, we are hoping for contributions from the medical humanities, and topics on community health including health literacy.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
