Barresi", University Hospital "G.
Martino" of Messina, Via
Consolare Valeria 1, 98125
Messina, Italy

Deadline for manuscript
submissions:

closed (31 July 2023)

Message from the Guest Editors

The digital revolution has changed many habits in every aspect of our personal and professional lives. As doctors, we have been pushed towards a paradigm shift in every aspect of our job, from diagnosis and the clinical approaches to prosthetic manufacturing.

A whole new clinical approach allows the researcher to investigate using new technologies, and to imagine new approaches to screen, follow, and evaluate the progression of different pathologies and clinical problems. Moreover, research on tissue engineering, 3D morphing, 3D scanner, and innovative materials, has made a significant leap forward.

This Special Issue will investigate medicine and dentistry focusing on the use of digital technologies.

This Special Issue of *IJERPH* welcomes the submission of manuscripts either describing original research or reviewing the scientific literature.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
