### Message from the Guest Editors

In this Special Issue, some of the technologies used in the clinical-psychological, psychotherapy, and mental health field will be analysed, including virtual reality, biosensors, artificial intelligence, and affective computing, with the aim of understanding how technological progress and the emergence of new technologies can generate value within the psychological panorama. Research suggests that the integrated use of psychological techniques and new technologies is extremely productive in terms of the potential improvement of health and therefore of “psychological health empowerment”. Given the great potential of the instruments analyzed that still continue to evolve and be refined, it is advisable to know them, validate their effectiveness, and adapt our operational models to new mental realities.

Deadline for manuscript submissions:

**31 December 2021**

Department of Biology, College of Science, Engineering and Technology, Jackson State University, 1400 Lynch Street, Box 18750, Jackson, MS 39217, USA

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, MEDLINE, PMC, GEOBASE, Embase, CAPlus / SciFinder, and many other databases.

**Journal Rank:** JCR - Q1 (*Public, Environmental & Occupational Health*) / CiteScore - Q2 (*Public Health, Environmental and Occupational Health*)
