Deadline for manuscript  
submissions:

**closed (15 December 2022)**

### Message from the Guest Editors

This Special Issue will comprehensively address cutting-edge scientific topics in the field of immunotoxicology. This interdisciplinary research area includes basic as well as applied research but also regulatory issues in preclinical and clinical drug development.

Research topics include (but are not limited to):

- immunotoxicology
- aryl hydrocarbon receptor ligands
- glyphosate
- heavy metals
- multi-omics approaches in immunotoxicology
- systems immunotoxicology
- immunotoxic aspects of nanomaterials
- immunotoxic aspects of phytopharmaceuticals
- immunotoxic aspects of biopharmaceuticals
- immunotoxic aspects of advanced therapy medicinal products
- regulatory issues of immunotoxicology

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Paul B. Tchounwou**

University, 1700 E. Cold Spring  
Lane, Baltimore, MD 21251, USA

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
