### Message from the Guest Editors

Relatively few scientific articles have focused on the impact of Japan's tobacco control efforts, but with more recent possible changes in policies being planned (e.g., smoke-free venues at the 2020 Tokyo Olympic Games), this is an ideal time for research on where Japan stands now in tobacco control policies and on the impact of its tobacco control measures to date.

Deadline for manuscript  
submissions:

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, MEDLINE, PMC, GEOBASE, Embase, CAPlus / SciFinder, and many other databases.

**Journal Rank:** JCR - Q1 (*Public, Environmental & Occupational Health*) / CiteScore - Q2 (*Public Health, Environmental and Occupational Health*)
