Sweden

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### **Message from the Guest Editors**

Man-made events, natural events, or conflicts cause major incidents, disasters, and crises all over the world. Human consequences from such events include both physical and psychosocial effects, an in individual, group, and societal perspectives. Disaster management includes the preparations, response, recovery, and mitigation perspectives, and the activities may be on an individual, community, or strategic level. The response after a mass casualty or disaster event requires a well-coordinated, most often multi sectorial response, involving several actors, both professional and voluntary. The response can be provided by local, national, and/or international organizations. In such situations, the challenge is to correctly identify urgent and long term needs or risks, and to respond to these in an affective and sustainable way.

This Special Issue welcomes papers with a prehospital or disaster management perspective related to major incidents and disasters.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Paul B. Tchounwou**

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
