Primary Care and Global Community Health

Guest Editor:

Prof. Dr. Jon Øyvind Odland
Department of Public Health and Nursing, UiT The Arctic University of Norway, 9037 Tromso, Norway

Deadline for manuscript submissions:
closed (31 March 2023)

Message from the Guest Editor

This Special Issue has a focus on health within a global setting. Using data and research from populations and communities worldwide, the journal will accept submissions on global health problems concerning their development, investigation, and interventions or solutions. This information will give readers an understanding of the reciprocal nature of anthropogenic effects on the environment and the negative or hazardous effects that the environment can have on humans. For example, climate change can be discussed, focusing on areas where humans contribute to climate change and how humans are equally affected; additionally, solutions will be discussed with a final goal to provide a comprehensive view on the issue. Ultimately, the potential impact on human health that occurs around the world can be explored and further understood.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
