

## **Advances in Environmental Toxicology, Pathology and Monitoring**

Guest Editors:

**Prof. Dr. Maurizio Manera**

Department of Biosciences, Food  
and Environmental  
Technologies, University of  
Teramo, 64100 Teramo, TE, Italy

**Dr. Luisa Giari**

Associate Professor, Department  
of Environmental and Prevention  
Sciences, University of Ferrara,  
44121 Ferrara, FE, Italy

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### **Message from the Guest Editors**

This Special Issue of the *International Journal of Environmental Research and Public Health* (IJERPH) focuses on the current state of the art and perspectives in environmental toxicology, pathology, and monitoring at all integration levels, from molecules to ecosystems. Articles based on field investigations and/or on laboratory experiments, especially those considering environmentally relevant concentrations or having applications in field research and risk assessment, are invited to this Special Issue. We will consider manuscripts dealing with all classes of pollutants, their effects, mechanism of toxicity, interaction with other stressors, biomarkers, and methods to detect their occurrence and impact in abiotic and biotic matrices. The application of new and/or multidisciplinary approaches is encouraged. Original research manuscripts, reviews, and case reports are welcome to this issue.

an Open Access Journal by MDPI

## Editor-in-Chief

University, 1700 E. Cold Spring  
Lane, Baltimore, MD 21251, USA

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
