Message from the Guest Editors

This Special Issue focuses on the current state of knowledge on the prevention and management of people with chronic viral hepatitis to prevent them from developing hepatocellular cancer (HCC). We invite contributions (using both quantitative and qualitative methods) exploring approaches to HCC prevention relating to: **Primary HCC prevention interventions, Secondary prevention, and Tertiary prevention.** We will accept manuscripts from different disciplines including epidemiology, intervention studies, and risk assessment. We encourage contributions utilizing quantitative, qualitative, and mixed methods methodologies.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
