Message from the Guest Editors

Dear Colleagues,

The goal of this Special Issue on Air Pollution and Greenness in Relation to Public Health is to highlight novel research and analyses on the potential human health benefits of greenness in urban areas. This Special Issue represents an effort to capture current developments in the field and provide a forum for cutting edge contributions to the literature. Research papers, analytical reviews, case studies, conceptual frameworks, and policy-relevant articles are encouraged.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
