Deadline for manuscript  
submissions:

**closed (30 September 2021)**

### Message from the Guest Editors

The protection of the environment and heritage requires a multifaceted approach, tapping into different strategies and tools that contribute to that goal. Recent developments in WebGIS have created new opportunities to promote participation in natural and cultural heritage monitoring, taking advantage of citizens as a source of geographic information, generating the geo-crowdsourcing approach. Today, mobile crowdsensing services (MCS)—a subclass of crowdsourcing—are possible where several users complete the tasks of collectively sharing data and extracting information to measure and map phenomena of common interest.

This Special Issue “Geo-Crowdsourcing Systems for Environment and Cultural Heritage Monitoring” aims to cover recent developments in the emerging Internet-empowered phenomenon where the time, effort, and resources from many individuals are mobilized towards specific goals.

Submitted papers should clearly show novel contributions and innovative applications in environmental and cultural heritage monitoring using the concept of geo-crowdsourcing.

## Message from the Editor-in-Chief

The *ISPRS International Journal of Geo-Information* invites you to submit research articles, reviews, and reports covering topics of the whole domain of geo-information. Although the journal was only founded in 2012, it has already achieved wide recognition in the scientific community. We are proud that since April 2015, our journal is indexed by the SCIE of the Web of Science. As Editor-in-Chief, I encourage you to consider *IJGI* for your scientific papers and would be pleased to welcome you as authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [GeoRef](#), [PubAg](#), [dblp](#), [Astrophysics Data System](#), [Inspec](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Geography, Physical*) / CiteScore - Q1 (*Geography, Planning and Development*)
