Deadline for manuscript
submissions:

closed (28 February 2021)

Message from the Guest Editor

Dear Colleagues,

By including both research articles and reviews, this Special Issue aims to capture the state of art of the research on the role of diacylglycerol kinase in signaling and phospholipid metabolism. The main focus will be on progressive advancements in the understanding of diacylglycerol kinase regulation and the biological role in different cellular contexts as well as contribution to disease development. Of particular interest are the recent efforts aiming to capitalize the available knowledge in terms of therapeutic advancements using pharmacological inhibitors and genetic tools in spite of the incomplete knowledge of diacylglycerol kinase structure.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
