Napoca, Romania

Deadline for manuscript
submissions:

closed (15 October 2020)

Message from the Guest Editor

Dear Colleagues,

There has been an increase in the number of clinical applications of functional genomics. In this Special Issue, we intend to highlight methods for functional genomics use in establishing the screening, diagnosis, and prognostics of diseases. Our aim is to provide a list of applications and to illustrate the clinical utility of recent research in the field of functional genomics for health and disease.

Submissions on but not limited the following topics are invited:

- Clinical applications of functional genomics;
- Functional genomics in drug discovery;
- Bioinformatic tools for functional genomics, omics application, and data integration;

Dr. Cornelia Braicu

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
