Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to collect original and review articles on all aspects of research on the transglutaminases family, from basic research to biomedical and biotechnological applications.

Suggested topics include, but are not limited to:

- transglutaminases in bacteria, plants, and other lower, non-mammalian organisms;
- the discovery of novel transglutaminases;
- mammalian transglutaminases: new functions for old enzymes;
- the thousand faces of the tissue transglutaminase;
- transglutaminases in human diseases;
- transglutaminases as therapeutic targets; and
- transglutaminases as biotechnological tools.
