

Vaccine Research and Adjuvant Discovery

Guest Editor:

Dr. Kendal Ryter

Department of Chemistry,
University of Montana, 32
Campus Drive, Missoula, MT
59812, USA

Deadline for manuscript
submissions:

25 July 2024

Message from the Guest Editor

The future of vaccines, as arguably the most impactful medical achievement of our time, is potentially reliant on the discovery and development of new technologies. This is particularly critical for new pathogens and those maladies that are the most difficult to treat using conventional vaccine strategies. The success of RNA vaccines for COVID-19 and adjuvanted vaccines for shingles highlight the future and the breadth of work still to be carried out.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
