Deadline for manuscript
submissions:

28 February 2022

Message from the Guest Editor

Molecular interactions function as the core regulators of the sexual maturation and reproduction. With the development of newer techniques to study, visualize and manipulate the involved hormones and receptors, newer perspectives and possibilities have emerged for us to study.

This Special Issue of International Journal of Molecular Sciences, “Hormones and Receptors in Sexual Reproduction”, aims to shed light on recent developments and perspectives of these molecular mechanisms in sexual reproduction, and welcomes submissions of reviews, opinions, research studies and articles concerning relevant topics.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and many other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
