

## Reproductive Immunology: Cellular and Molecular Biology 3.0

Guest Editors:

**Prof. Dr. Udo Jeschke**

Interdisciplinary Center of  
Experimental Tumor Research,  
University Hospital Augsburg,  
Stenglinstr. 2, 86156 Augsburg,  
Germany

**Prof. Dr. Antonis  
Makrigiannakis**

Department of Obstetrics and  
Gynecology, Medical School,  
University of Crete, 71003  
Heraklion, Greece

Deadline for manuscript  
submissions:

**20 August 2024**

### Message from the Guest Editors

Reproductive immunology in the 21st century still deals with a problem that has been known for decades—the fetus as semi-allograft and its response to the maternal immune system. Therefore, there is a strong need to solve problems such as spontaneous and recurrent miscarriages and, in addition, repeated implantation failure.

Furthermore, socioeconomical changes in an aging society are an additional challenge especially for the reproductive medicine specialist. Although highly developed in vitro fertilization techniques are available, many couples still face the problem of childlessness.

A quite new player in the field is the microbiome of the reproductive tract. For decades, it was believed that the uterus is sterile but an up to date analysis revealed that we not only have a vaginal microbiome but also a cervical, uterine, male, and even a placental microbiome.

Therefore, we would like to invite our colleagues to submit articles that deal with cellular and molecular mechanisms in the field of reproductive immunology to this Special Issue.

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
