

Thinking in 3D: From Molecules to Organisms

Guest Editors:

Prof. Dr. Magda Anna de Eguileor

Dept. of Biotechnology and Life Sciences, University of Insubria, Via J.H Dunant, 21100 Varese, Italy

Prof. Dr. Maura Francolini

Department of Medical Biotechnology and Translational Medicine, Università degli Studi di Milano, Milan, Italy

Deadline for manuscript submissions:

closed (30 October 2020)

Message from the Guest Editors

Dear Colleagues,

Animal life depends on the ability of the cells, tissues, systems, and body compartments to interact via complex processes of communication basically due to 3D interactions.

We would like to kindly invite you to contribute to the Special Issue "*Thinking in 3D: from molecules to organisms*" of *International Journal of Molecular Sciences* (Impact Factor 4.183). This open-access Special Issue will bring together original researches and review articles on the importance of 3D organization to maintain structure and function with emphasis on macromolecular complexes, processes involved in cell metabolism, cell–extracellular matrix (ECM) interaction, cancer cell plasticity, organ development, both in cellular and animal models by using conventional as well as highly technologically advanced approaches.

Prof. Dr. Maura Francolini

Prof. Dr. Magda Anna de Eguileor

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
