Message from the Guest Editors

This Special Issue aims to analyze the mobility of pedestrians and bicycles in the future cities of the world and to highlight the best actions for the adaptation of urban infrastructures and the change of the behavior of populations.

Topics of interest include, but are not limited to:

- Adaptation of transport and green mobility infrastructures.
- Temporary cycle paths.
- The relationship between urban planning and green mobility.
- Pedestrian and bicycle mobility.
- The contribution of green mobility to reducing pollution.
- The danger and requirements of personal transport equipment.
- Road safety and the adaptation of infrastructure.
- People's health and its relationship with pedestrian mobility and cycling.
- Experiences of cities around the world in the development of green mobility infrastructures.

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank: CiteScore - Q2 (*Building and Construction*)
