Message from the Guest Editor

Dear Colleagues,

This Special Issue will select the papers from ICI2017 (2017 3rd International Conference on Inventions, <http://sciforum.net/conference/ICI2017>) and Spintech Thesis Awards. The aims and scope of the 2017 3rd International Conference on Inventions is to make researchers focus on patent-based research. Papers with innovative ideas in all aspects of science and engineering are also encouraged in this Special Issue.

Prof. Dr. Chien-Hung Liu

Message from the Editorial Board

The unique journal *Inventions* is different from all other journals. Many scholars spend their lives publishing research papers in many different journals, but most of these journals do not help scholars collate and analyze their results or assist in promoting them to a relevant industry. However, *Inventions* will help authors not only to publish their papers in the journal, but also to promote their research results to industry and assist them in realizing the purpose of technology transfer. In the future, *Inventions* will help authors to evaluate their technology license fees based on the valuation theory and approaches and also help authors to show their patents and technologies on a network transaction platform.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank: CiteScore - Q1 (*General Engineering*)
