Message from the Guest Editors

The tremendous success of the Special Issue “Plastic and Reconstructive Surgery in Personalized Medicine” and multiple requests to continue this series revealed to us the need for further research in this new field of reconstructive surgery and inspired us to continue the series

This Special Issue of the Journal of Personalized Medicine Part II focuses on the following topics:

- Individualized microsurgery and reconstructive surgery;
- Perioperative flap imaging;
- Customized perforator flaps;
- Monitoring flap perfusion;
- Tailored tissue engineering for reconstruction;
- Biofabrication applications in personalized plastic and reconstructive surgery.

Please submit your article with your latest achievements in these fields to the journal. We look forward to receiving your contributions to this journal.
