Precision Medicine for Oral Diseases

Guest Editor:

Prof. Dr. Keiso Takahashi

Division of Periodontics, Department of Conservative Dentistry, Ohu University School of Dentistry, Koriyama, Japan

Deadline for manuscript submissions:

closed (10 September 2023)

Message from the Guest Editor

Oral diseases are not still well managed because the mechanisms of them are not completely understood. However, several paradigm shifts have occurred in the different fields and possible or novel diagnostic devices and therapeutic modalities may be expected.

This Special Issue will focus on the development of clinical or pre-clinical examination, diagnosis, and treatment modalities by novel or advanced technologies including artificial intelligence (AI) against various oral diseases. This encompasses a wide scope of research topics, and includes endodontic diseases, endo-perio lesions, periodontal disease, peri-implant diseases, orofacial pain, dry mouth (xerostomia), trauma, oral cancer, and cleft lip and palate.

We are looking for critical review papers that may provide important knowledge and identify clinical questions and resolutions of various oral diseases. Original clinical and pre-clinical research papers as well as basic research papers that may provide solutions to the challenges of diagnosing and treating patients with oral diseases are also welcomed.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
