Deadline for manuscript  
submissions:

**closed (31 August 2020)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue of the *Journal of Personalized Medicine* aims to highlight the current state of the utilization (or implementation) of genomic technologies (including family history) in various clinical practices and showcase innovative and novel approaches to integrating genomic technologies into practice. In particular, we are interested in examples of innovative clinical programs and evidence of provider utilization, patient acceptance, cost-effectiveness, and/or feasibility. Papers may address use of telemedicine, as well as other aspects of digital health to solve challenges in resource-limited settings (e.g., limited access to geneticists, genetic counselors), molecular review boards, team-based care, and other clinical delivery approaches. Case reports, reviews, and original articles are welcome.

Dr Susanne B. Haga

Dr. Lori A. Orlando

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
