Toulouse, France

Deadline for manuscript
submissions:

closed (10 August 2022)

Message from the Guest Editor

Personalized and Precision Medicine (PEMED) identifies the right therapeutic/prevention strategy at the right time dependent on the specific needs of the patient.

PEMED concerns diagnostics, bioinformatics, drug discovery, and therapies, with the aim of translating precision medicine into direct improvements in health care. This annual Personalized and Precision Medicine International Conference will gather the leading experts in the field to meet, discuss and integrate business strategies. We would like to invite authors to submit a research article or review article for inclusion in this Special Issue on “Personalized and Precision Medicine”, which will feature the most exciting advances in this field. The issue will also provide high visibility for all contributions presented as part of PEMED. We are planning to invite all conference attendees and speakers to contribute to this Special Issue. For more information, see below:

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
