Message from the Guest Editor

This is a Special Issue of high-quality feature papers in order to give a broad overview in the field of Network Security and Privacy.

The scope of “Feature Papers in Network Security and Privacy, but is not limited to, the following items:

- Security architectures of telecommunication systems;
- Security in open Telco infrastructures;
- Key agreement protocols and mechanisms;
- Cryptography for advanced secure protocols;
- Security of supporting ICT infrastructures;
- ICT generic products security and privacy;
- Confidentiality, integrity, and availability of information;
- Quantum computing risks and challenges;
- Security risk assessment and security assurance;

Regulation progress on security assessment.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute research and comprehensive review articles for publication in Journal of Sensors and Actuator Networks (JSAN), an international, open access journal which provides an advanced forum for research findings in areas of sensors and actuators. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sensors and actuators and fostering applications of sensor-based measurements and effective actuator incorporation.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

Journal Rank: CiteScore - Q1 (*Control and Optimization*)
