Urban Regeneration: Challenges and Opportunities for the Landscape

Guest Editors:

Prof. Dr. Francesca Moraci

Prof. Dr. Laura Ricci

Prof. Dr. Kh Md Nahiduzzaman

Prof. Dr. Celestina Fazia

Dr. Carmela Mariano

Dr. Francesca Perrone

Deadline for manuscript submissions:
10 June 2024

Message from the Guest Editors

Dear Colleagues,

The enhancement of the landscape as an opportunity to regenerate cities.This Special Issue will welcome manuscripts that link to the following themes:

- PNRR and urban regeneration best practices for landscape enhancement;
- Public spaces and urban landscape;
- Welfare in urban regeneration; public urban policy for identity and landscape;
- Accessibility and sustainable mobility, prerequisites for enhancing the urban landscape as it changes;
- Cultural heritage and landscape;
- Architecture and new social relations and the landscape of urban connections;
- Not only an ecological transition: the challenges of the landscape;
- Landscape and urban planning for climate-proofing
- Landscape development amongst competing land uses;
- Sustainable and inclusive design of open spaces;
- Multifunctional role of green infrastructures in the landscape urban regeneration;
- The role ecosystem services play in landscape planning;
- Landscape identity and community involvement.

We look forward to receiving your original research articles and reviews.

Special Issue

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
