Optimizing Land Development: Trends and Best Practices

Guest Editors:

Dr. Marek Walacik

Institute of Spatial Management
and Geography, University of
Warmia and Mazury in Olsztyn,
10-720 Olsztyn, Poland

Dr. Aneta Chmielewska

Institute of Spatial Management
and Geography, University of
Warmia and Mazury in Olsztyn,
10-720 Olsztyn, Poland

Deadline for manuscript
submissions:

31 August 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue seeks contributions that bridge the gap between changing optimization strategies and evolving land uses. We welcome empirical research and conceptual/theoretical works that delve into key processes, such as:

- land/land-use/land-cover change;
- land management, including agriculture, forestry, the built environment, and others;
- landscapes, landscape design, and landscape planning;
- urban contexts, urban–rural interactions, and urban planning and development.

Contributions at the intersection of land use science and related disciplines are particularly encouraged. However, we welcome submissions from diverse human–environment fields that emphasize the fundamental role of human activities in optimizing land development. We encourage diversity in contributions to capture the nuanced complexities of land development across different contexts.

We look forward to receiving your original research articles and reviews.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and
Geography, Department
Sustainable Landscape
Development, University of Halle,
Von-Seckendorff-Platz 4, 06120
Halle, Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
