Message from the Guest Editors

Dear Colleagues,

The fundamental goal of scholarship in the field of landscape architecture is to enhance the practice of designing, planning, conserving and managing the land. Due to the inherently multifunctional nature of landscapes, both biophysical and cultural, many scholars and practitioners have addressed the importance of multi-, trans- and interdisciplinary approaches to landscape architecture education, research and practice.....

This Special Issue invites papers that discuss and present perspectives from both academia and professional practice in landscape architecture which address the synergies between academic programmes and professional organisations. We aim for this Special Issue to critically look at existing system barriers and opportunities afforded by educational standards and assessment of landscape architecture programmes and to explore strategies required to promote a better collaboration between education institutions and professional bodies in terms of landscape design, planning, conservation and management.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and
Geography, Department
Sustainable Landscape
Development, University of Halle,
Von-Seckendorff-Platz 4, 06120
Halle, Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
