Calabria, 87036 Rende, Italy

Message from the Guest Editors

Dear Colleagues,

This Special Issue contains a selection of the best papers presented at IFIT 2018 on recent Italian advances on topics related to the theory, design, practice and application of the Mechanism and Machine Design. Novel results and solutions in the broad field of machines design, achieved in Italy as well as with international collaborations mainly within the IFToMM community, are presented.

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *Inspec*, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Mechanical*)
