Message from the Guest Editors

Based on the success of the Special Issue “Marine Natural Products as Anticancer Agents” as well as the critical relevance of this topic, we are pleased to announce the second edition of this Special Issue.

This Special Issue will highlight the potential of marine natural products as anticancer agents, empathizing the diversity of the molecular targets and the mechanistic effects. The application of innovative scientific approaches, including co-cultures, 3D cultures, organoids, and in vivo applications to avoid the gap between in vitro and in vivo experiments is encouraged. In addition, approaches describing synergistic combination treatments of marine compounds with clinically used or experimental anticancer agents are welcome.

Message from the Editor-in-Chief

During the past few decades there has been an ever increasing number of novel compounds discovered in the marine environment. This is exemplified by the robust preclinical and clinical pipeline that currently exists for marine natural products. *Marine Drugs* is inviting contributions on new advances in marine biotechnology, pharmacology, chemical ecology, synthetic biology, and genomics approaches related to the discovery of therapeutically relevant marine natural products. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Embase](#), [PubAg](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmacology, Toxicology and Pharmaceutics (miscellaneous)*)
