Deadline for manuscript  
submissions:  
**20 July 2022**

### Message from the Guest Editor

Recent advances in biomaterials, tissue engineering and nanotechnology for dental clinical applications represent an important challenge for daily practice. Dental diseases often can lead to partial or complete damage to dental structures. Thus, the use of modern technologies with innovative and sophisticated biomaterials are fundamental for all kinds of dental care. The present topic would like to focus on the progress of contemporary materials coupled with biological and/or technological platforms for successful daily practice in all fields of dentistry, including craniofacial bone regeneration procedures.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty comprehensive topics: biomaterials, energy materials, advanced composites, structure analysis and characterization, porous materials, manufacturing processes and systems, advanced nanomaterials, smart materials, thin films and interfaces, catalytic materials and carbon materials, materials chemistry, materials physics, optics and photonics, corrosion and materials degradation, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics, metals and alloys, general. The distinguished and dedicated editorial board and our strict peer-review process ensure the highest degree of scientific rigor and review of all published articles. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compindex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and many other databases.

**Journal Rank:** JCR - Q1 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
