Computational Intelligent and Image Processing

Guest Editors:

Dr. Abeer Alsadoon
School of Computing, Mathematics and Engineering, Charles Sturt University, 250 Boorooma St, Wagga Wagga, NSW 2678, Australia

Dr. Luis Coelho
ISEP-School of Engineering, Polytechnic of Porto, Porto, Portugal

Deadline for manuscript submissions:
closed (24 April 2023)

Message from the Guest Editors

This leading special session promotes and stimulates research in the field of computational intelligence (CI) and image processing (IP). Covering a wide range of issues, from the tools and languages of CI to its philosophical implications, this special session of *Computational Intelligent and Image Processing* (*CIAIP*) provides a vigorous forum for the publication of both experimental and theoretical research, as well as surveys and impact studies. The special session is designed to meet the needs of a wide range of CI workers in academic and industrial research and in different fields. Please see the scope to learn about the focal topics in computational intelligence. We would like to offer an opportunity to researchers and practitioners to identify new promising research directions as well as to publish recent advances in this area.

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
