Deadline for manuscript submissions:
31 July 2024

Message from the Guest Editors

Dear Colleagues,

We think it is time for us to take a look back at the development of anesthesia and analgesia, which is as old as the history of medicine. We would like to talk about various and wide-ranging topics together and share our opinions. This Special Issue will publish the results of original studies and reviews about anesthesia and analgesia in surgical practice.

This Special Issue will examine the techniques, technologies, and results of cutting-edge clinical, diagnostic, and therapeutic processes in the field of complication management after anesthesia. Editors invite contributions from recognized members of the anesthesia and analgesia community, such as editorials, systematic reviews with or without meta-analysis, and observational or interventional original studies.

Special Issue

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian
University of Health Sciences,
Kaunas, Lithuania

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.
Journal Rank: CiteScore - Q2 (*General Medicine*)
