Challenges and Features Facing Contemporary Orthognathic Surgery

Guest Editors:

Prof. Dr. Vlatka Debeljak

Dr. Giovanni Badiali

Dr. Federica Ruggiero

Deadline for manuscript
submissions:

20 November 2024

Message from the Guest Editors

Dear Colleagues,

As you know, orthognathic surgery involves a spectrum of surgical procedures on the maxilla and mandible to improve both form and function.

Orthognathic surgery may be undertaken to improve how the teeth fit together, to normalize or optimize facial proportions, and/or to treat obstructive sleep apnea.

Orthognathic surgery requires a multidisciplinary-team approach that includes an orthodontist, an oral and maxillofacial surgeon, and allied health professionals.

Given the complexity of this topic and its impact on clinical practice and public health, *Medicina* is launching a Special Issue entitled “Challenges and Features Facing Contemporary Orthognathic Surgery”, with the aim of collecting together accurate and up-to-date scientific information on all aspects of contemporary orthognathic surgery. We are pleased to invite you and your co-workers to submit original manuscripts that report on all of the new possibilities in orthognathic surgery. We would also like to invite you to submit review articles aimed at contemporary materials and techniques.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), and [other databases](#).

Journal Rank: CiteScore - Q2 (*General Medicine*)
