Message from the Guest Editor

Dear Colleagues,

Women's health belongs to the branch of medicine that focuses on the diagnosis and treatment of diseases and conditions that affect a woman's physical and emotional well-being.

In the forthcoming Special Issue on "Diagnosis, prevention, and treatment for diseases specific to women", we would like call for papers on a wide range of topics relating to the diagnosis, prevention, treatment, and nursing care regarding reproductive diseases, including maternal and child health, genital diseases, breast diseases, endocrine (hormonal) diseases including menstruation, birth-control, and menopause, and finally general health topics (medical diseases) specific to women.

We warmly welcome your submissions, including novel and interesting original articles or reviews in this Special Issue.
