

medicines

Dear Colleagues, Dear Researchers,

For the *Medicines Travel Award 2017*, we received in total 72 applications from all over the world, of a very high quality. The decision was not easy to make and has been deliberated over by four experts from four continents (Asia, Australia, Europe and America) together with myself as Editor-in-Chief of *Medicines*.

The Travel Award was granted to **Dr. Peggy M.P.C. Bosch**, a postdoctoral research associate at the Radboud University, Nijmegen, The Netherlands, who is working on acupuncture in the treatment of schizophrenia, sleep and depression.

The award consists of **800 Swiss Francs** to attend any academic conference of her choice in 2017.

On behalf of the jury and the *Medicines* team, I would like to congratulate Dr. Bosch for her achievements!

Prof. Dr.Dr. Gerhard Litscher
Editor in Chief
Medical University of Graz, Austria

2017 TRAVEL AWARD WINNER

Medicines (ISSN 2305-6320) is a new journal and **publication fees are fully waived for papers submitted in 2017.**
