University, Beni-Suef 62514,  
Egypt

### Message from the Guest Editors

This Research Topic aims to cover promising, recent, and novel research trends in studying endophytes and microbes as a source for bioactive metabolites. This Research Topic may also cover, but is not limited to, the following topics:

- Discovery of genes involved in the biosynthetic pathway of natural products in endophytes and microbes.
- Metabolomic study of the microbes and endophytes metabolites.
- Assessment of the biological activity of natural products obtained from natural sources.
- Isolation and functional research of natural products from plants, endophytes and microbes.
- Drug discovery and In-silico studies against different biological conditions.

Deadline for manuscript  
submissions:

**closed (20 December 2023)**

an Open Access Journal by MDPI

## Editor-in-Chief

### Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy  
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

## Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biochemistry & Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
