Biotechnology of Natural  
Products, Faculty of Science and  
Technology, University of La  
Réunion, 15 Avenue René Cassin,  
CS 92003, CEDEX 09, 97744 Saint-  
Denis, France

Deadline for manuscript  
submissions:

**closed (31 December 2023)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to collect high-quality review papers in all the fields of Microbial Biotechnology. We encourage researchers from related fields to contribute review papers highlighting the latest developments in Microbial Biotechnology or to invite relevant experts and colleagues to do so. Full-length comprehensive reviews will be preferred.

Let us share the science as widely as possible.

Dr. Mireille Fouillaud

## Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
