Deadline for manuscript
submissions:

closed (30 November 2022)

Message from the Guest Editor

Dear Colleagues,

The field of antiviral drug discovery has been involved in an unprecedented endeavor to enhance established antiviral strategies and develop novel and innovative approaches for new classes of antiviral agents targeting different life cycle pathways that are critical for the virus, including viral and host factors and new antiviral modalities.

In the present Special Issue entitled “Antiviral Drugs”, we are inviting the submission of original research articles, letters, and/or reviews from academia, research institutes, not-for-profit organizations, or industry that work on the identification, synthesis, and evaluation of direct-acting antiviral or host-targeting agents that inhibit viral replication or pathogenesis. Furthermore, we also welcome the submission of mechanistic studies of new small organic molecules, metal complexes, and natural products, as well as studies on drug resistance, the in silico design of antiviral agents, and antiviral target validation.

Prof. Dr. Grigoris Zoidis

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
