Deadline for manuscript
submissions:

closed (31 October 2021)

Message from the Guest Editor

Dear Colleagues,

Chirality is ubiquitous in nature and due to its effect on pharmacological properties, toxicity, and metabolism, it is of the utmost importance in drug discovery programs. In this regard, it encompasses enantioselective synthesis, chiral drug design and development, natural scaffolds, synthetic and natural libraries, biomarkers, chiral materials, enantiomeric separation, and methods to stereochemical elucidation. This Special Issue will cover all main aspects of chirality involved in drug discovery. The issue will publish original research articles, critical reviews, perspectives, and mini reviews from renowned researchers from academia and industry.

Prof. Dr. Quezia Bezerra Cass

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
