Deadline for manuscript
submissions:

10 June 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue explores the cutting-edge innovations at the intersection of polymers, thiolated compounds, and nanopharmaceuticals. It delves into the forefront of drug delivery, presenting advanced formulations and strategies that have the potential to redefine therapeutic applications. From the design intricacies of polymeric carriers to the unique properties conferred by thiolation, it explores the potential of nanopharmaceuticals to revolutionize drug release mechanisms and enable targeted delivery. This Special Issue offers a comprehensive exploration of the latest breakthroughs, addressing challenges in drug delivery through novel formulations and controlled release techniques. It serves as a valuable resource for researchers and practitioners seeking a nuanced understanding of the evolving landscape of polymeric and thiolated nanopharmaceuticals. By providing a dedicated platform for researchers, this Special Issue aims to facilitate the exchange of knowledge on nanoparticle formulations, targeted drug delivery systems, nanomedicine, and nanotheranostics.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
