submissions:

**closed (31 December 2019)**

### Message from the Guest Editors

Dear Colleagues,

In this Special Issue, authors will explore targeting approaches applied to various disease states, as well as visual validation methods of targeted drug transport and efficacy. Articles may consider a whole-body approach, aimed at identifying the bulk location of a therapeutic at the organ level, down to cellular/sub-cellular levels of detection of therapeutic uptake. Specific focus on imaging modalities is encouraged, with interest in MRI, OCT, US, or radionuclide-based technologies, among others. The possible topics include, but are not limited to the following:

Molecular imaging; Drug delivery; Nanomedicine; Theranostic; Image-guided drug delivery; Optical imaging; Photoacoustic/ultrasound imaging (US); X-ray/CT imaging; Magnetic resonance imaging (MRI); Radionuclide imaging.

## Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
