dos Estados, 5001-Bangú, Santo
André 09210-580, SP, Brazil

Deadline for manuscript
submissions:

closed (25 February 2023)

Message from the Guest Editors

Nanomedicine focuses on the effect of nanomaterials in biological systems to achieve a more efficient therapy or increase the accuracy of diagnosis. Cancer is a leading cause of death worldwide. Nanotechnology studies have, thus far, showed successful results for cancer therapy and diagnosis. Nanomedicine can be classified as a material with at least one nanometric component, which can include metallic nanoparticles, polymeric nanoparticles, graphene and others.

This Special Issue aims to shed light on the current state of the art of nanomedicine in cancer therapy. We invite articles on all aspects of drug targeting, pharmacokinetics and pharmacodynamics. Manuscripts regarding issues such as multiple-drug resistance tumors and a combination of nanomaterials and chemotherapy and radiotherapy agents will be highlighted.

an Open Access Journal by MDPI

Editor-in-Chief

Department of Pharmaceutics,
Ernest Mario School of
Pharmacy, Rutgers University,
Piscataway, NJ 08854, USA

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
