Water and Nutrient Uptake in Plants

Guest Editors:

Dr. Fernando Ferrari Putti

School of Sciences and
Engineering, São Paulo State
University (UNESP), Tupã 17602-
496, SP, Brazil

Dr. James A. Bunce

Beltsville Agricultural Research
Center, Beltsville, MD, USA

Deadline for manuscript
submissions:

31 October 2024

Message from the Guest Editors

Climate change has been impacting food production, which should be increasing to meet the growing population's demand. To increase food production, it is essential to study the behavior of the soil–wetland–water relationship, and the definition and description of the elements of this system are crucial. Water plays a fundamental role within this system, as it is directly related to the transport of solutes, photosynthesis, growth, and productivity. Associated with this, its interaction with the soil can affect root development and uptake of nutrient; therefore, understanding how the ground affects the dynamics of the plant is essential to maintain productivity.

Special Issue

plants

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Plant Sciences*) / CiteScore - Q1 (*Plant Science*)
