

Smart and Functional Elastomers, Hydrogels, and Ionogels

Guest Editor:

Prof. Dr. Hyun-Joong Chung

Department of Chemical and
Materials Engineering, University
of Alberta, 116 Street and 85
Avenue, Edmonton, AB T6G 2V4,
Canada

Deadline for manuscript
submissions:

closed (31 October 2018)

Message from the Guest Editor

This Special Issue focus on the current state-of-the-art of the fundamentals and applications of elastomers, hydrogels, and ionogels. These polymeric materials, either in dried or in swollen states, exhibit soft and resilient mechanical properties, often with great fracture toughness. Incorporation of functional groups or nanoparticles adds novel functionality or stimuli-responsiveness on top of their their unique mechanical properties, enabling a broad range of potential applications such as flexible or stretchable energy storage, biosensors and biomaterials, soft electronics, and many more.

Papers are sought that discuss the latest research in the area or summarize selected areas of the field. The scope of the Special Issue encompasses the synthesis, characterization, and application of elastomers and gels made of conjugated polymers, organic radical polymers, ion-conducting polymers, metal-containing polymers, or hybrid inorganic/organic motifs.

an Open Access Journal by MDPI

Editor-in-Chief

und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (*Polymer Science*) / CiteScore - Q1 (*Polymers and Plastics*)
