Message from the Guest Editors

This Special Issue on “Antioxidant Properties of Medicinal Plants” aims to present advances in the studies of antioxidant properties of medicinal plants with a special emphasis on the actual benefits those properties may have on a human body, as well as on the safety of consuming food supplements enriched with antioxidants. Topics include but are not limited to:

- Antioxidant properties of medicinal plants;
- The influence of antioxidants present in medicinal plants on the human body;
- Prevention of diseases associated with oxidative stress using medicinal plants;
- Safety of consuming food supplements enriched with natural antioxidants.

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
